-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 2/16/200d, with respect to the rejection(s) of claim(s) 1-10 under 103 (a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 112 new matter and indefinite rejections.
2. Regarding the applicant's assertion that the examiner did not set forth rejections of claims 7-10, the examiner's disagrees. There are rejections set forth to those claims. The office action mailed on 11/22/2004 included rejections of those claims but the point is moot due to the cancellation of independent claim 1 and the addition of new independent claim 11.
3. The applicant has cancelled claims 1-2 and added new independent claim 11.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
5. **Claims 3-11** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 11 recites "a battery detachably

Art Unit: 2644

attached in the recess in the case so as to be upwardly projected from the recess at an upper portion of the battery". The specification does not disclose that the battery is attached as claimed and that it is projected from the recess as recited. Claims 3-10 depend upon claim 11.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. **Claim 11** is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 11 recites "a sound generating device mounted in the case". The specification recites the sound-generating device mounting on the case (page 2, line 23); in the case (page 3, line 28) and "in the recess" (page 2, line 28). Additionally, claim 11 recites that the case has a cubic shape. The specification does not teach of the case specifically having a cubic shape.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 5,392,455 to Benoist et al. discloses a transducer with integrated switch element.

US 4,115,770 to Kanazawa discloses a buzzer having adjustable buzzer sound.

Art Unit: 2644

US 5,668,423 to You et al. discloses an exciter for generating vibration in a pager.

US 5,861,686 to Lee discloses a device for generating waking vibrations or sounds.
